General Guidelines of Acceptable Comparable Sales

- Only include relevant comparable sales which closed prior to the effective date of the appraisal.
- The comparable sale must be a finalized purchase; listings or contingent sales are not eligible for consideration.
- The closing date must not exceed 12 months prior to (or later than) the effective date of the appraisal.
- A minimum of two (2) comparables must be provided, with a maximum of five (5). The comparable sale(s) must be in close proximity to the subject property. While the definition of proximity may differ based on whether the subject property is located in a rural or urban area, closer comparables that exhibit similar characteristics are more likely to be deemed suitable and acceptable. If the subject property is within a subdivision, condominium complex, or planned unit development (PUD), recent sales of similar homes within the community hold greater relevance.
- The Gross Living Area (GLA) of the comparable should closely match that of the subject property; in general, the variance in GLA should be within +/-20% of the subject property.
- Comparable sales should share similar attributes, including home style, lot size, GLA, room/bedroom/bathroom count, age, condition, and construction quality.
- The ROV may or may not result in a change to the report or the opinion of value.
